

ECO MOSS

# THE ORIGIN OF ECO MOSS

We take great pride in producing our moss panels right here in Australia, using preserved reindeer moss ( *Cladonia Stellaris*) carefully sourced from Scandinavia. Our commitment to nature and sustainability is at the core of our brand values.

Preserving the beauty of nature while crafting unique products for our clients is our mission. By handpicking the reindeer moss from sustainable sources, we ensure minimal impact on the environment. It is essential to us that our products are not only visually stunning but also sustainable, contributing to a better world.

We believe in offering our clients a truly unique product that not only enhances their spaces but also respects and honors nature's wonders. Each moss panel is a testament to our dedication to creating sustainable solutions that showcase the beauty of nature without harming it.

By selecting our moss panels, you are not only acquiring a remarkable design element, but you are also making a conscious choice to support sustainable practices and the preservation of our natural world. Together, we can create a greener, more harmonious environment.

ECO MOSS

# GREENFLEX PANEL

ECO MOSS

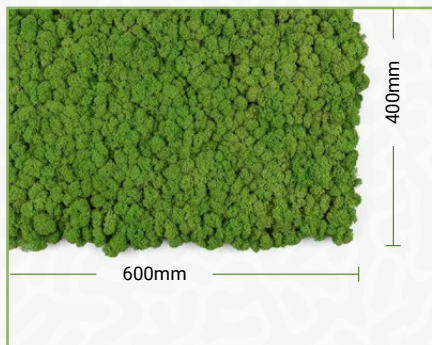

Ref: **MP-B64**

Backing panel: **PVC Mesh**  
Size 600x400mm

Qty per box: **4 panels**

Weight: **approx. 1.6kg per panel**

Introducing our **GreenFlex Eco-moss panels** that offer an economical solution for stunning green walls. Our exceptional material guarantees superior quality and aesthetics, without compromising affordability. It is the perfect choice for anyone seeking a cost-effective option.

- ✓ Economical solution
- ✓ Easy to cut
- ✓ Easy to install
- ✓ Simple to manipulate

# INSTALLATION

## A Substrate

Our GreenFlex Eco-moss panels solution is highly versatile and can be used on different substrate walls such as timber, plaster, or bricks. Installing GreenFlex is easy and can transform any surface into a beautiful green oasis.

## B Layout

Before installing GreenFlex panels, it is important to prepare your layout to achieve a seamless look. To do this, you will need to cut the panels to the desired size using scissors or an adapted cutting machine. This will ensure that your panels fit perfectly and look great once installed.

## C Curved

With GreenFlex's versatility and flexibility, it's the ideal Eco moss panel material to use for any curved wall. Its adaptability allows for a seamless integration that complements the natural curves of your space.

## D Fastener

To ensure proper installation, it is important to use the appropriate fasteners based on the substrate. We recommend using high-resistance liquid nails for panel adhesion and screws for added strength.

# HOW TO TAKE CARE OF YOUR MOSS WALL

No watering

No trimming

No light required

Avoid pulling /  
crushing the moss

ECO MOSS

## BENEFITS

### Endless creations possibilities

With our multiple working techniques and the features of the moss, all projects are possible and achievable

### Long-lasting

Our moss has been naturally preserved with care and last up to 30 years!

### Humidity indicator

The moss helps to indicate the humidity in the room, the moss dries up when humidity is under 40% and absorbs humidity when over 40%.

### No upkeep , water or soil

The preserved moss does not require any water, light or upkeep and stays beautiful for years. This is the strongest natural moss.

### Hypoallergenic

As the moss is preserved, there is no soil, moisture or pollen, so it is perfect for people with allergies or for use in sterile environments

### High class sound absorber

Absorbing up to twice as much as the industry average for products of same size and thickness.

### Air purifying

Because air goes through the moss, it absorbs all the small particles in the air.

### Environmentally friendly

Our mosses are hand picked with care in farms all around the world. As they are preserved they make you save 1000's of litres per year.

### Fire resistant

The Eco moss is 100% naturally fire resistant, contact us to receive our test reports and videos.

## SOFT AND COLOURED REINDEER MOSS

Please be aware that the colours displayed above may not accurately represent the actual dyed colour of our Reindeer Moss (*Cladonia Stellaris*). As a natural product, the moss has unique textures and varying abilities to absorb dye, resulting in subtle differences in colour. Additionally, computer-generated images like these samples may appear different on your computer screen or printed on your colour printer compared to the actual moss colour.
